Aschaffenburg – Bamberg – Nürnberg – Roth – Regensburg – Passau

bayernhafen cruise services

Throughout history, rivers have served as vital transport arteries linking people and countries to each other. So it is only natural that travelling by river cruise ship enjoys such great popularity.

With piers for river cruise ships in Aschaffenburg, Bamberg, Roth, Regensburg and Passau, we offer you five locations in Bavaria from a single source. This gives you a decisive advantage: whether you want to call in at one or a number of ports, make a short stop to let passengers board and disembark or intend to lay anchor for longer, bayernhafen is your first port of call. While your guests enjoy their time on shore, we and our partners replenish your freshwater tanks or ensure the proper disposal of your refuse and waste water. A number of our piers also offer shore power connections.

bayernhafen continually invests in infrastructure and utility services for river cruise ships. It is currently developing additional berths and power supply points, and is planning over the longer term to build cruise terminals and winter berths at a number of its locations.

Aschaffenburg Floßhafen Main km 87.22 - 87.34, right-hand riverbank

Main km 87.22 - 87.34, right-hand riverbank

Located a stone's throw from the gates of Frankfurt, Aschaffenburg is the jewel in the Bavarian crown. Right in the heart of the historical city centre, the Floßhafen is the perfect port of call for cruise ships. Even before they disembark, your guests can admire the imposing beauty of Castle Johannisburg and the roman elegance of the Pompejaneum. It is only a short walk from the pier to the sights and sounds of the picturesque historic town centre. Offering a wide range of shopping opportunities, culinary specialities and the heartfelt hospitality of the local people, your guests from all over the world will feel right at home.

We will take care of reserving a berth for you and will be more than happy to provide advice and assistance on docking at Aschaffenburg.

The Floßhafen pier is located close to the historic town centre of Aschaffenburg, with direct bus links via Darmstädter Straße.

Shore power: 32A / 63A / PowerLock connection - Please contact Georg Kittel to register 7 days before docking.

Drinking water supply: water supply terminal, throughput 23 m³/hr Please register with Georg Kittel one day in advance.

Range of refuse containers provided for waste disposal. Please register with Georg Kittel 8 days before docking.

Aschaffenburg Mainlände Main km 84.2, riverbank left-hand side

Let Aschaffenburg be your 'springboard' to excursions throughout the region.

The location directly on the Main will enable fast and uncomplicated docking and ensure your guests can board and disembark with ease. Excellent transport links mean your guests will be in Spessart or other destinations in the region in a blink of any eye. Even Frankfurt am Main is within easy reach. The Mainlände pier will be the ideal transfer point to make up for lost time: while your guests enjoy their bus trip, the ship travels on to the next berth.

Smooth loading operations are assured. We will also be more than happy to assist you with your short-term docking needs.

The Mainlände pier can be directly accessed by bus via Hafenrandstraße. Parking for buses directly at the boarding point.

Drinking water: please direct your enquiry to our Port Master.

 $Waste\ disposal:\ please\ direct\ your\ enquiry\ to\ our\ Port\ Master.$

Waste water disposal: organisation of a vacuum tanker possible. Please register with the Port Master at least 2 days in advance.

bayernhafen Bamberg – Quay 5 MDC kilometre 2.10-2.70 east

The UNESCO World Heritage City of Bamberg enchants visitors with its almost completely preserved medieval and baroque-period historical town centre. Its outstanding tourist attractions include the Old Town Hall, the Imperial Cathedral, 'Little Venice', and the rose garden in the New Residence. Your guests will be able to experience the famous Bamberg beer culture in a host of beer cellars or in the welcoming restaurants operated by the local breweries.

The first impression your guests gain of Bamberg is when they dock at bayernhafen Bamberg. From here, it is only a five-minute drive to the historic town centre, or your guests can travel to the many sights in and around Bamberg. Our services help your guests get the most out of their stay in Bamberg.

Bus stops for coaches are available near the quay.

Shore power: PowerLock connection Fleet card required

Self-service water terminals are available at all of the piers. Activation via fleet card. Fleet cards can be credited/topped up at payment machines. If you do not already have a fleet card, the Port Master will be happy to provide you with one.

General refuse and organic waste disposal services available. Please register with the Port Master.

Waste water disposal: organisation of a vacuum tanker possible. Please register with the Port Master at least 2 days in advance.

bayernhafen Regensburg - Donaulände Danube km 2379

The UNESCO World Heritage City of Regensburg is the most well-preserved medieval city in Germany. Its 12th century stone bridge, St. Peter's Cathedral, numerous patrician houses, noble family towers and the castle of the Princely House of Thurn and Taxis bear witness to the importance of this former Free Imperial City. Your guests can visit the Bavarian History Museum to learn about the Bavarian way of life. Outside Regensburg, there are also numerous sights to discover, such as the world-famous Walhalla memorial.

The Donaulände berths are located right on the edge of the historical old town. The operator, 'das Stadtwerk Regensburg', ensures smooth docking and undocking and will be happy to help you with any queries or questions you may have.

Guests can be picked up by bus directly from the quay.

PowerLock connections must be used. They can be activated via Energy Card.

Standpipes can be provided by 'das.Stadtwerk'.

Direct collection by waste disposal truck possible. Advance registration required.

Waste water disposal pipe is available. Advance registration required.

bayernhafen Passau - Racklau Danube km 2228

Known as the "three-river city" where the rivers Danube, Inn and Ilz meet, Passau is a popular point of departure for cruises along the Danube. High above the baroque historic old town towers the medieval fortress, Veste Oberhaus. Other fascinating places of interest include St. Stephan's Cathedral, with its characteristic onion towers, and the Old Town Hall. The pier at bayernhafen Passau-Racklau is within sight of the historic centre and complements the inner-city berths. Its convenient location means it is ideal for stress-free loading and embarkation far away from congested roads.

bayernhafen is investing in developing the pier infrastructure. Plans are under way to build more piers.

Buses can access the piers directly via the B8.

PowerLock connections must be used. They can be activated via Energy Card.

New water supply, request standpipe by phone: +49 941 79597-32

For refuse disposal, please register with our Port Master.

Waste water disposal: organisation of a vacuum tanker possible. Please register with the Port Master at least 2 days in advance.
